### Opening of schools 8<sup>th</sup> March 2021

All primary school pupils should return to face-to-face education on 8 March.

To prepare for opening to all pupils, schools should review and update their coronavirus risk assessment.

Schools should share the results of their risk assessment with staff and consider publishing it on their websites to provide transparency for pupils and parents – HSE expects all employers with over 50 staff to do this. Once completed, the risk assessment needs to be monitored and reviewed regularly, to ensure the measures are working and to take action to address any shortfalls. Schools must regularly review and update their risk assessments, treating them as live documents which are updated as guidance changes.

This risk assessment is based on the **system of controls** outlined in the DfE's [Schools coronavirus \(COVID-19\) operational guidance](#) & [Actions for schools during the coronavirus outbreak](#).

**Please note that this risk assessment has been created in line with the current government guidance. Schools need to ensure that this template reflects any local guidance and the specific needs of their school.**

### Guidance

This risk assessment has regard to all relevant guidance and legislation including, but not limited to, the following:

- The Health Protection (Notification) Regulations 2010
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities'
- **NEW** DfE (2021) 'Schools coronavirus (COVID-19) operational guidance

- **UPDATED** DfE (2021) 'Actions for early years and childcare settings during the coronavirus (COVID-19) outbreak'
- DfE (2021) 'Face coverings in education'

1) Hazard / Activity	2) Who can be harmed and how?	3) What controls exist to reduce the risk? Have you followed the hierarchy of controls (eliminate, substitute etc)	Risk Score Consequence X Likelihood	4) Any further action; This should be included in the action plan on overleaf

<b>Protective measures in early years settings</b>	Staff, pupils, parents, visitors increased risk of transmission of Coronavirus (COVID 19)	<ul style="list-style-type: none"> <li>The setting is not required to arrange children and staff in small, consistent groups. **Likelihood:**

5 – Very likely  
 4 – Likely  
 3 – Fairly likely  
 2 – Unlikely  
 1 – Very unlikely

**Consequence:**

5 – Catastrophic  
 4 – Major  
 3 – Moderate  
 2 – Minor  
 1 – Insignificant

Risk Rating	Action Required
17 - 25	Unacceptable – stop activity and make immediate improvements
10 – 16	Tolerable – but look to improve within specified timescale
5 – 9	Adequate – but look to improve at review
1 – 4	Acceptable – no further action but ensure controls are maintained

- (1) List hazards ***something with the potential to cause harm*** here
- (2) List groups of people who are especially at risk from the significant hazards which you have identified
- (3) List existing controls here or note where the information may be found. Then try to quantify the level of risk ***the likelihood of harm arising*** that remains when the existing controls are in place based on the number of persons affected, how often they are exposed to the hazard and the severity of any consequence. Use this column to list the controls that you might take and develop all or some of that list into a workable action plan. Have regard for the level of risk, the cost of any action and the benefit you expect to gain. Agree the action plan with your team leader and make a note of it overleaf. If it is agreed that no further action is to be taken this too should be noted.
